

Attention

The members of Cumulus Association

Brussels, May 15th, 2022

Dear Cumulusian,

As an active member of the global community of design, both as practitioner and educator, and as past President of the IxDA - Interaction Design Association, I had the occasion to work with Lorenzo Imbesi on several initiatives connecting both Cumulus and IxDA's roadmaps.

Lorenzo Imbesi has contributed to the P-R-E series, Practitioners meeting Researchers meeting Educators, that I co-initiated with IxDA and Cumulus, during the Montreal Design Declaration.

With this, I am endorsing Lorenzo Imbesi for the position of the next Cumulus President 2022-2025: his activities to date, in scope and diversity, show the potential to bring a constructive vision and approach to the development of the association, supporting the strategic and operational expertise of the secretariat, a world class expertise of building networking in this 30+ years.

Best regards,

Alok b. Nandi
