

Letter of Endorsement

Dear Cumulus members,

it is a pleasure to provide a letter of support and endorsement for the nomination of Lorenzo Imbesi for next President of Cumulus Association.

I'm a professor at University of Perugia's Design Course, in Italy and I am actively part of Cumulus Association. In Perugia we have a three-year degree in Design activated in 2017 and a master's degree in Planet Life Design activated in 2020, in which I am President. Lorenzo immediately introduced me to Cumulus by illustrating the objectives and purposes of the Association and guiding us in the procedure that allowed us to be part of this network of high-level educational institutions from all over the world.

I have the pleasure to strongly support Lorenzo Imbesi his election of next Cumulus President 2022-2025 because I have known him for some years and I can highlight the many qualities that would make Lorenzo an excellent President for this association, in fact he has always shown great empathy, has a ready cultural openness, is of undeniable loyalty, in addition to expressing the high level of research in the field of design.

Precisely in the light of these reasons, I have the pleasure of supporting Lorenzo because I believe that he is the right person to lead the Cumulus association at this moment to define its future in the right direction.

With great respect,

Benedetta Terenzi
