**Subject: letter of endorsement for Lorenzo Imbesi as the new President of Cumulus Association**

Dear Cumulus community,

I am delighted to endorse Lorenzo Imbesi, current member of the Cumulus Executive Board, as the new President of Cumulus Association for the years 2022-25. The reason why I endorse his candidacy is that I have been very impressed by him and especially his work in organizing the last Cumulus Conference, which allowed us all to all participate in an innovative way in our annual Conference, even during a global pandemic.

I appreciate his professionalism, experience and openness and attention in preserving the spirit of the association. We live in an historical moment in which there is a need of projects, a need to reimagine the future of our Association. Lorenzo Imbesi is the right person to develop a common project in which the many knoweldges and diffent knowledges of our association converge.

For these reasons I believe that he would be a very good choice as the next President of our Association.

Kind Regards,

Arch. Fabio Mongelli  
Dean of RUFA – Rome University of Fine Arts
