Object: Letter of endorsement

Dear all

I know that you are preparing the election for the new term of your Association.

I am Luisa Bocchietto, I was President of WDO World Design Organization until October 2019, and I am active member of the global community of design since a long time,

Actually with the role of Senator of World Design Organization I am endorsing the Professor Lorenzo Imbesi, member of the Board in the position of next Cumulus President for the term 2022-2025.

I worked with him, with pleasure and success in many events and meetings related to the promotion of design in Italy and around the world and I wish to support the continuity of presence of Italian expert and vision inside the collaboratives organizations.

I hope my best for all of you and wish you a fruitful good work

Luisa Bocchietto
