### Endorsement letter

Referring to the long term cooperation I am endorsing **prof. Lorenzo Imbesi** in the position of next **Cumulus President** 2022-2025.

Lorenzo Imbesi has spectacular achievements as the academic tutor, researcher and organiser. He's got national and international experience, working at the Sapienza University in Rome and at the universities in various countries.

He was a speaker and Chair of numerous international conferences and is an author of many scientific publications.

He proved his organisational skills as the leader of various national and international bodies.

He served as the Cumulus Board Member for two terms. This is why he knows the Association and its needs very well.

The last, but very important:

Lorenzo Imbesi is a man who is open to others, has very good interpersonal skills and strives for positive solutions. His activities are based on basic values, which are so important for Cumulus Association.

Yours faithfully,

Professor Michał Stefanowski  
Head of Design Department  
Faculty of Design / Academy of Fine Arts in Warsaw
