Obj: Letter of endorsement for Prof Lorenzo Imbesi's candidature as president of the Cumulus Network

To Whom it May Concern:

It is my pleasure to endorse the candidature of my colleague, Professor Lorenzo Imbesi, as a President of the Cumulus network for the coming mandate.

Lorenzo has served as a member of the Cumulus network for the last six years and in this period he has demonstrated a very high commitment to a healthy and positive development of the network and its initiatives. In this period he has demonstrated is high interest for the future of Cumulus and for the possibility that this network offers to his members.

For this reason I personally believe he would be the best choice to lead the network for the coming years.

Sincerely,
Nicola Morelli
