

ENDORSEMENT

I want to endorse Lorenzo Imbesi for another term as the president of Cumulus.

His contribution has been valuable to the organization and community. He has been inclusive and distinctive in his approach.

From an Indian perspective, I see Lorenzo as understanding the social fabric of India and the challenges faced.

It would be interesting to see where his contribution could lead and how we could engage through Cumulus leading to collaboration and allowing a fair exchange of ideas and concepts.

Lorenzo does have the bandwidth, and I wish him the very best in his endeavour to work with Cumulus for another term.
