CUMULUS Secretariat
Ms. Eija Salmi

December 27, 2024

Endorsement letter

Referring to the long term cooperation I am endorsing **prof. Lorenzo Imbesi** in the position of **Cumulus President** 2025-2028.

After being Member of Cumulus Executive Board for two mandates, Lorenzo Imbesi was elected to be the Cumulus President in the term 2022-2025. During this period he proved to be the right person at the right place. The President himself in cooperation with CEB and Secretariat organized smoothly the legal transformation of Cumulus Association to the independent organization. He was very active and worked well for the visibility of the Cumulus Association. Some of the activities performed in the period 2022-2025 were continuation of the predecessors, some were new. The second term for Lorenzo Imbesi as President will guarantee the growth of the organization, development of Cumulus Association based on the friendly cooperation and continuation of the values emerging from the Cumulus roots.

Apart from being Cumulus President in the term 2022-2025, Lorenzo Imbesi has spectacular achievements as the academic tutor, researcher and organizer. He's got national and international experience, working at the Sapienza University in Rome and at the universities in various countries.

He was a speaker and Chair of numerous international conferences and is an author of many scientific publications.

He proved his organizational skills as the leader not only of Cumulus Association, but also of various national and international bodies.

Yours faithfully,

Professor Michał Stefanowski
Head of Design Department
Faculty of Design / Academy of Fine Arts in Warsaw
