General Secretary Eija Salmi*

To Whom it may concern,

I warmly support the application of Director Lorenzo Imbesi for his second term at the Presidency of the Cumulus Executive Board - 2025-2028.

I write this endorsement letter as representative of the School of Architecture, Art and Design, Tecnológico de Monterrey —a Cumulus member— to submit my recommendation to support Director Imbesi's candidacy.

I have known Director Imbesi from several years as Design Director at Sapienza Università di Roma, and more recently I have had the privilege of working closely with him in his role as Cumulus Association President. He has led Cumulus' transition as an independent association with great agility and care; in addition, he has been very active in promoting projects that add value to the association, always taking care of openness and inclusion as central values of his term. Director Imbesi is widely traveled, always promoting the association in different regions of the world.

Director Imbesi has been very inspirational to me; his commitment and leadership have been always part of his qualities. Therefore, I enthusiastically recommend him for the following Cumulus Executive Board term.

Yours,

Roberto Iñiguez Flores
Associate Provost for Academic and Faculty Affairs
TECNOLÓGICO DE MONTERREY
